-Skilled in JavaScript, CSS and HTML. Seeking an opportunity to create, design, and troubleshoot in a fast-paced environment. I am fascinated by software programming, I like ambitious goals, I like thinking through how we can anticipate the future. I do think I can work well with people and I do like to be on a team to share my skills, knowledge/ideas and to contribute. Software is cool and I want to involve, explore and learn more about it.

Education

Tertiary: Undergraduate (*B.S Computer Science*)
Philippine Christian University (PCU)

Secondary: Graduated K-12 Curriculum (*STEM*)
Romblon National High School (RNHS)

Elementary: Guimpingan Elementary School

Experience

Technician's Assistant

Romblon Electric Corporation, Inc.

Field of Interest

- Web Development
- Building Projects
- Web Design
- Software Programming
- Solving Problems
